

CORE Sponsorship

CORE is a mission-driven and not-for-profit endeavour and we rely on the generous support of our sponsors to support and sustain the service.

[BECOME A SPONSOR](#)

By becoming a CORE Sponsor you support:

Open scholarly infrastructures

We provide a worldwide service and are committed to the Principles of Open Scholarly Infrastructure (POSI).

Open repositories network

We support the global open repositories network with innovative technical solutions as an integral part of our mission.

Open research community

We support researchers, academic institutions, developers, funders and other organisations in their Open Access & Open Research mission.

Raising scholarly data quality

We facilitate interoperability and raise quality of scholarly data to align with FAIR principles.

How to sponsor?

We offer five levels of sponsorship enabling organisations to select the most suitable option. In becoming a CORE Sponsor you make a very public statement of support for Open Access and Open Research.

Strategic partner

Premium
